DATACOM

At Nedco, we pride ourselves on having one of the industry's leading datacom infrastructure groups. With locations strategically positioned across Canada, we are partnered with top tier Industry Manufacturers to provide leading technologies and connected infrastructure solutions for a wide range of markets and applications. With datacom specialists located across Canada, we are always available to assist you with expertise for any of your datacom needs. These partnerships help us help you maximize your investment in physical infrastructure.

With the convergence of multiple networks (HVAC, lighting, security, and communications) on one IT platform to create intelligent buildings, Nedco has the ability to provide a full solution offering for any application or environment. We can leverage our highly experienced Electrical, Lighting and Distribution teams to support and enhance your overall infrastructure needs whether you are a contractor, an integrator, an end-user or consultant. Our diversity is our strength and allows us to offer fully integrated solutions for you and your customers.

Our team is ready to help you put together the industry's best datacom infrastructure solution possible for your clients. Reach out to one of our datacom specialists and let us help you with your projects and solutions!

SOME OF OUR PARTNERS

Nedco's legacy started in 1911 under the name of Northern Electric Company. Nedco is now one of the most comprehensive datacom, electrical and telecommunication distributors in Canada.

Today, Nedco is a part of Rexel, the largest distributor of electrical products in the world. Operating from 2000 branches, 32 Countries, 27000 employees. Rexel delivers high quality products and services.

One of Nedco's key strengths is our extensive branch network. This includes 69 showrooms, 28 of which are dedicated datacom centres that have extensive stock selection and specialists to help with all your datacom needs.

Servicing industry professionals since 1911
